A letter from our CEO, Gregg Maughan

For more than 45 years, Forever has remained committed to changing the lives of others through products that promote lasting health and wellness.

This company was built on the principles of quality, kindness, honor and the willingness to follow the road less traveled. A commitment to these values helped Forever grow from my father, Rex, selling aloe vera products out of our home to operating in over 160 countries throughout the world. Today, those principles stand as the foundation for our business.

As a vertically integrated company, we own our aloe fields, manufacturing facilities, research and development, quality control laboratories, and distribution channels. This gives us control over our products, ensuring quality, safety and customer satisfaction have always been our top priorities.

We rely on the unique combination of ingredients found in nature and advancements found in science to bring the best, most effective products to market — always with your health and wellness in mind.

Our hope is that you will not only look better and feel better because of our products, but that you will also experience the positive, transformative change that Forever has brought to millions of lives around the world.

To your health,

Gregg Maughan
CEO, Forever Living Products International

From Plant to Product to You

With a “plant to product to you” philosophy, Forever is the largest aloe manufacturer in the world. With over 7,500 acres in Texas and the Dominican Republic, we grow 20 million plants and produce, on average, 60 million pounds of aloe vera each year that are harvested and shipped to our product manufacturing facilities. But it’s not just any aloe vera — we only grow and harvest Aloe barbadensis Miller, which is the most nutritionally valuable variety of aloe.

Since 2200 BC, people have been using aloe vera for its soothing qualities, and it’s no wonder why. Aloe vera has powerful benefits that nourish the body inside and out. From aiding in digestion and promoting natural energy to soothing and conditioning the skin, pure inner leaf aloe vera gel is at the heart of everything we do at Forever. That’s why we own our process — our aloe fields, manufacturing facilities, research and development, quality control laboratories, and distribution channels — truly making what we do “from plant to product to you.”

Plant Cultivation

Our aloe plants are carefully nurtured, and once the leaves reach maturity after about a year, each one is harvested by hand.

“We only harvest our aloe vera leaves after they have reached full maturity,” says Leonel Mesa, Senior Director of Operations. “This ensures that the largest amount of pure aloe vera gel, along with all of its nutrients, are preserved throughout the manufacturing process. Doing this by hand allows us to get the highest quality aloe to use in Forever’s incredible products.”

After removal from the plants, the leaves are transported to an on-site processing station where they are washed twice before being filleted by hand. This ensures the rind is fully removed and only the nutritious inner leaf gel is left.

Next, the aloe vera gel passes through several quality check stations, and any anomalies are removed before it travels to an aseptic tank for processing. This entire process is completed within six hours of harvesting so that all the aloe vera's beneficial properties remain intact.

During aseptic processing, the aloe is flash-heated to lock in the benefits and freshness, while safely reducing the level of impurities without the need for preservatives. This aseptic process has been proven to maintain over 300% more of the aloe's vitamin content, resulting in a final product that is fresh and nutritious. The pure aloe vera gel is then bulk-packed into large totes for transportation to our manufacturing facilities.

Product Formulation

Aloe Vera of America (AVA) serves as the manufacturing hub for most of our aloe operations around the world. It is here where the production process, and the foundation for many of our products, begins. This state-of-the-art facility has the latest in manufacturing technology, laboratory testing equipment, and product research and development to produce beverages and cosmetics using pure inner leaf aloe vera gel as the primary ingredient.

"Due to the importance of product quality, we have a high level of procedure and documentation around our manufacturing processes," says Terry Harkins, AVA's Director of Quality Management.

As part of this process, once the inner leaf aloe vera gel arrives, it is tested to make sure it meets all product specifications and is then flash-heated a second time. From here, the formula heads to the packaging line. Once final quality inspections and testing are performed, our aloe vera products are released for shipment.

Delivery to You

After cultivation and formulation, it's time for distribution. Forever has regional distribution centers all over the globe that supply products to over 160 countries. This allows us to control lead times, reduce costs, and assure our quality standards are upheld throughout our distribution channels.

A complex system of cutting-edge technology ensures that each product you order is efficiently packaged. Once the order is fulfilled, the package is reviewed for accuracy and sealed with care to make sure that it arrives safely to your door.

"Our packaging philosophy for our packing employees is to 'create your own masterpiece,' something our Founder Rex Maughan instilled," says Peter van Eijk, Director of Operations at Forever Direct. "Every package should account for accuracy, efficiency and quality. When someone receives a Forever order, it should look like a gift, handled with love and care."

With Forever, the benefits of nature are backed by science. Our "plant to product to you" philosophy ensures that we can control the cost, and most importantly, the quality of our products at every step of the process. This means you can feel confident in knowing that you are getting the very best product to help *you* look and feel your best.

Sustainable Solutions

Throughout this process, Forever continues to prioritize innovation and sustainability in several ways:

All the water used to clean and wash our aloe vera is recycled back into the aloe fields to help conserve water.

With over 20 million aloe vera plants in our aloe fields, we have been able to cleanse the Earth of millions of tons of CO2.

For eight consecutive years, Aloe Vera of America has received the Blue Thumb Award, which certifies that it has met all local and federal pretreatment requirements for eliminating any possible pollutants.

Aloe Vera of America has International Organization for Standardization (ISO) certifications for water efficiency, energy efficiency, quality, environmental, occupational safety, and laboratory competence.

For eight consecutive years, Aloe Vera of America has received the P2 award from the Texas Commission on Environmental Quality for its waste recycling and minimization programs.

Forever Direct reduced shipping box sizes, switched to boxes made of 85% recycled material, and replaced plastic filling with paper filling.

Forever switched the packaging of Forever Aloe Vera Gel® to PET bottles, which is a 100% recyclable plastic, and ours is made from more than 50% post-consumer recycled content.

Vitamins and minerals are essential to helping your body function the way it should.

While a healthy diet and lifestyle certainly help, most people still benefit from the nutrient boost found in nutritional products and supplements. Adding these to your diet provides your body with what it needs to maintain optimal health, including supporting immunity, digestion, energy, and an active lifestyle.

Forever's products are scientifically advanced — featuring clinically studied ingredients — and we are continually evaluating our formulas to ensure they provide the very best ingredients based on emerging science. What's more, our nutritional drinks contain up to 99.7% pure stabilized aloe vera gel, the heart of our company and many of our products.

Drinks

Forever’s stabilized aloe vera gel is the foundation for our drink products. Our 99.7% inner leaf gel is hand-harvested from Forever’s own aloe fields in Texas and the Dominican Republic, and it’s aseptically processed, which allows the formula to remain free of added preservatives.

Forever’s aloe vera gel is certified by the International Aloe Science Council for its aloe content and purity, so no matter which Forever drink you choose, you’re getting the benefits of aloe, just as nature intended.

“I’ve drank Forever Aloe Vera Gel daily since 1999 and would not go a day without it, as it has improved my well-being in so many ways. I call it my youth and life elixir. I absolutely love it.”

Rosita Nasser-Darrell, Germany

Support a variety of healthy body functions including digestion and nutrient absorption with 99.7% pure inner leaf aloe vera gel.

Skin Care

Skin is the body's largest organ, so it's important to have a skin care routine for both face and body that supports it. Your lifestyle, nutrition and environmental stressors like the sun all affect your skin, which can impact your health — making it even more important to nourish and protect skin.

Forever has combined aloe vera with other natural and scientifically advanced ingredients to create powerful formulas designed to moisturize and soothe skin while providing results from head to toe.

Facial Care

Forever makes building a facial skin care routine easy with three lines of products that address a variety of skin types and concerns. Most of these products include Forever’s proprietary stabilized aloe vera gel, which soothes and supports skin. Start with the basics — cleanse, tone, target and moisturize — and customize your routine from there, plus learn which facial care products are best for you on pages 34-35.

#609

Sonya® Daily Skincare System

The Sonya daily skincare system contains four products to meet all your facial skin care needs, each including the power of aloe and select botanicals.

This daily skincare system includes one of each product: Sonya refreshing gel cleanser, Sonya refining gel mask, Sonya soothing gel moisturizer, and Sonya illuminating gel.

The Power of Forever is the Power of Love

Envelop your senses with the power and love of the Samoan people. Honoring Forever's Founder, Rex Maughan, both the Malosi and Alofa fine fragrances pay tribute to his deep connection with Samoa, its people, and the legacy he left there through his service and love of the islands.

In the Samoan language, Malosi means power and Alofa means love — words woven into the fabric of Forever by Rex, who often said “The power of Forever is the power of love.”

Both bottles are thoughtfully designed, featuring the cultural, traditional artwork that represent the meanings for Malosi and Alofa. The essences within feature distinctive, sophisticated scents crafted with a carefully selected combination of botanicals. Malosi, a fragrance for him, is an intriguing woody scent with spices. A fragrance for her, Alofa is an alluring warm floral scent with a hint of citrus.

Jump-start Your Forever Journey

Interested in earning extra income* by sharing Forever's products? One box can set you up for success as a Forever Business Owner!

A Start Your Journey Combo Pak includes a selection of Forever essentials, including our flagship Forever Aloe Vera Gel®, so you can try a variety of products, share them with others, and even sell them at retail price. You'll also get business building tools to help you reach your goals even faster.

A pack qualifies you to opt into the Forever business while getting a taste of Forever, plus it's the simplest way to becoming an Assistant Supervisor and receiving a 30% discount on every Forever purchase.
